

Alexander Neaman Curriculum Vitae

Personal information

Birth: October 9th, 1971
Nationality: Russia
E-mail: alexander.neaman@gmail.com
Mobile phone: +56998248903
ORCID: 0000-0002-1819-0872
Researcher ID: ABF-3260-2020
Scopus: 6602923704
<https://publons.com/researcher/4058652/alexander-neaman/>

Education

1989-1994 B.Sc., M.Sc., Moscow State University, Russia. Faculty of Soil Science; Department of Soil Chemistry

1995-2000 Ph.D., Hebrew University of Jerusalem, Israel. Faculty of Agriculture, Food and Environment; Department of Soil and Water Sciences

Academic appointments

1995-2000 Instructor and Research Assistant
Hebrew University of Jerusalem, Israel. Faculty of Agriculture, Food and Environment; Department of Soil and Water Sciences

2000-2001 Post-Doctoral Researcher
Institut National Polytechnique de Lorraine, École Nationale Supérieure de Géologie, Laboratoire Environnement et Minéralurgie, Nancy, France

2001-2002	<u>Post-Doctoral Researcher</u> Institut National de la Recherche Agronomique, Unité de Recherche de Géochimie des Sols et des Eaux, Aix-en-Provence, France
2002-2004	<u>Research Associate</u> Pennsylvania State University, Department of Geosciences, Department of Crop and Soil Sciences, University Park, PA, USA
2004-2016	<u>Associate Professor</u> Pontifical Catholic University of Valparaiso, School of Agriculture, Quillota, Chile
2016-2020	<u>Full Professor</u> Pontifical Catholic University of Valparaiso, School of Agriculture, Quillota, Chile
2020-2022	<u>Full Professor</u> Southern University of Chile, Institute of Agricultural Engineering and Soils, Valdivia, Chile
2022-present	<u>Full Professor</u> University of Tarapacá, Faculty of Agricultural Sciences, Arica, Chile

International collaboration

2018-present	<u>Visiting Professor</u> Peoples' Friendship University of Russia (RUDN University), Department of Landscape Design and Sustainable Ecosystems, Moscow, Russia
--------------	--

Academic management experience

2005-2020	<u>Head of ISO Certified Laboratory of Soil and Plant Tissue Analysis</u> Pontifical Catholic University of Valparaiso The laboratory provides services to external clients (farmers, corporates, governmental institutions, etc.)
2016-2017	<u>Program Chair</u> Pontifical Catholic University of Valparaiso School of Agriculture offers undergraduate (B.Sc.) degrees in Agriculture with 500+ students
2017-2019	<u>Deputy Director of Research</u> Pontifical Catholic University of Valparaiso

Administrative duties in managing research programs of the School of Agriculture with 20+ professors. Member of the committee of the M.Sc. Program in Agricultural and Environmental Sciences with 50+ students

Teaching experience

Fundamentals of Soil Science, Soil Mineralogy, Soil Mapping, Methods of Soil Analysis (Hebrew University of Jerusalem, Israel)

Fundamentals of Soil Science, Soil Fertility, Plant Nutrition, Environmental Soil Chemistry, Environmental Impact of Modern Society, Environmental Issues in Chile (Pontifical Catholic University of Valparaiso, Chile)

Soil Chemistry, Natural Resource Management, Fundamentals of Soil Science, Environment and Society, Applied Chemistry (Southern University of Chile, Chile)

Fundamentals of Soil Science, Soil Fertility, Plant Nutrition (University of Tarapacá, Chile)

Research areas

Soil environmental chemistry

Soil ecotoxicology

Soil remediation

Soil quality assessment

Environmental education

Sustainable development

Summary of scientific productivity

h-index (Web of Science):	26
Book chapters:	3
Books:	4
Supervisor of M.Sc. thesis (completed):	24
Supervisor of Ph.D. thesis (completed):	1
Supervisor of Ph.D. thesis (ongoing):	1

Languages

Russian, English, Hebrew, French, and Spanish

Awards

Selected by the International Union of Soil Sciences to participate in the International Council for Science (ICSU) Young Scientists Conference, April 4-6, 2007, Lindau, Germany

Award for excellence in research, 2016 and 2018, Pontifical Catholic University of Valparaíso, Chile

Books

Sadzawka, A., Carrasco, M.A., Demanet, R., Flores, R., Grez, R., Mora, M., Neaman, A., Romeny, G., Zagal, E. 2015. Guía para la validación de los métodos de análisis de lodos y de suelos receptores de lodos. Sociedad Chilena de la Ciencia del Suelo, Universidad de Concepción, Chillán, 24 p.

Sadzawka A., Carrasco M.A., Demanet R., Flores H., Mora M.L., Neaman A., Hernández, P., Sandoval M., 2015. Métodos de análisis de lodos y de suelos. Sociedad Chilena de la Ciencia del Suelo, Universidad de Concepción, Chillán, 114 p.

Sadzawka A., Carrasco M.A., Demanet R., Flores H., Grez R., Mora M.L., Neaman A., 2007. Métodos de análisis de tejidos vegetales. Segunda Edición. Serie actas INIA N° 40. Instituto de Investigaciones Agropecuarias, Santiago, Chile, 140 p.

Sadzawka A., Carrasco M.A., Grez R., Mora G., Flores H., Neaman A., 2006. Métodos de análisis recomendados para los suelos de Chile. Revisión 2006. Serie actas INIA N° 34. Instituto de Investigaciones Agropecuarias, Santiago, Chile, 164 p.

Book chapters

Neaman, A., Ginocchio, R., Yáñez C., 2017. Soil ecotoxicology: Chilean studies with soils polluted by copper mining. In: C. Araújo & C. Shinn (editors). Ecotoxicology in Latin America. Nova Publishers, Hauppauge, NY, USA, pp. 325-338.

Neaman, A., Ginocchio, R., Yáñez C., 2017. Restoration and conservation actions: Chilean studies on phytoremediation of metal-polluted, acidic soils. In: C. Araújo & C. Shinn (editors). Ecotoxicology in Latin America. Nova Publishers, Hauppauge, NY, USA, pp. 551-562.

Neaman A., Singer A., 2011. The effects of palygorskite on chemical and physico-chemical properties of soils. In: A. Singer & E. Galán (editors). Developments in Palygorskite-Sepiolite Research. A New Look at these Nanomaterials. Elsevier, Amsterdam, The Netherlands, pp. 325-349.

Research projects funded by the Chilean Government (last 15 years)

Protective potential of zinc against copper toxicity to earthworms in vineyard and orchard soils contaminated with copper-based pesticides (Funding: FONDECYT, Chilean Government, project 3220026, years 2022-2025, co-investigator).

Potential alleviation of copper toxicity in contaminated agricultural soils in central Chile by

calcium, magnesium, and zinc amendments (Funding: FONDECYT, Chilean Government, project 1200048, years 2020-2022, principal investigator).

Conductas proambientales y prosociales en estudiantes chilenos: Comprendiendo su dimensión moral y ciudadana (Funding: FONDECYT, Chilean Government, project 1200259, years 2020-2022, co-investigator).

Use of amendments for decreasing metal concentrations in vegetables grown in Valparaiso Region (Funding: FONDEF, Chilean Government, project ID17AL0056, years 2018-2020, principal investigator).

Soil, house dust, locally grown vegetables, and drinking water as environmental media of human exposure to trace elements in Puchuncaví (Funding: FONDECYT, Chilean Government, project 1160018, years 2016-2018, principal investigator).

Microbial properties as indicator of quality of metal-contaminated agricultural soil (Funding: FONDECYT, Chilean Government, project 1150503, years 2015-2017, co-investigator).

Ecotoxicological assessment of soil quality: use for legislative regulations concerning metal-contaminated soils (Funding: FONDECYT, Chilean Government, project 1130041, years 2013-2015, principal investigator).

In situ metal immobilization and phytostabilization of contaminated soils in the Puchuncaví valley (Funding: FONDECYT, Chilean Government, project 1085005, years 2008-2011, principal investigator).

Determination of speciation and bioavailability of copper in agricultural soils in Aconcagua River basin: Generating a map of copper toxicity for crops and soil organisms (Funding: FONDECYT, Chilean Government, project 1050403, years 2005-2008, principal investigator).

International research projects (last 15 years)

Performance comparison of innovative metal(loid) nanosorbents in smelter-polluted soils: Geochemical and ecotoxicological benchmarks (Funding: Russian Foundation for Basic Research and Czech Science Foundation - Grant Agency of the Czech Republic, years 2021-2024, principal investigator).

Determination of seasonal dynamics of copper speciation and mobility in agricultural soils in Aconcagua River basin, central Chile (Funding: ECOS-CONICYT scientific cooperation program between France (project C05 B05) and Chile (project ECOS210001), years 2006-2008, principal investigator).

Research projects funded by industry (last 15 years)

Efecto de polvo foliar enriquecido con metales sobre el desarrollo de especies agrícolas y forestales (Funding: Anglo American Chile mining corporation, years 2021-2023, principal investigator).

Source apportionment for contaminated soils in the Catemu valley (Funding: CEMIN Mining Holding, years 2019-2020, principal investigator).

Comparison of exposure to trace elements through vegetable consumption between a mining area and an agricultural area (Funding: Anglo American Chile mining corporation, years 2015-2016, principal investigator).

Solubility, partitioning, and activity of copper-contaminated soils in a semiarid region (Funding: Anglo American Chile mining corporation, years 2013-2014, principal investigator).

Potential for the revegetation of metal-polluted, acidic soils (Funding: CODELCO mining corporation, years 2008-2010, principal investigator).

Journal articles indexed in Web of Science (last 5 years)
